Overview

All Light, All Good!

As the city lights up for the night, colour spills across the waters of Pohang.

At the 2026 Pohang International Fire & Light Festival, teams from Korea, France and Japan light up the sky. A towering silo becomes a canvas for media art. The Lights Parade and Night Walk take to the streets, while DJs from across Asia bring electronic dance music to the waterfront. Fire and light, art and music come together for a night by the sea.

From Yeongildae to Songdo, a trail of light brings the city and its people together. Join us for an unforgettable night and take a little of its light back into your everyday life.
